

Section 4.6 – Student-Athlete Advisory Committee.

A. Mission Statement: The MAAC Student-Athlete Advisory Committee was established by the conference to give student-athletes an opportunity to generate a voice within the conference, to solicit student-athlete responses to proposed NCAA legislation, and to discuss issues relating to the welfare of student-athletes.

B. Structure: Each institution will elect one representative and one alternate to the conference committee. Only currently registered full time student-athletes may be eligible for membership. All members are elected annually during the fall semester and serve for one academic year. The chair of the MAAC SAAC will be the conference's representative to the NCAA SAAC.

C. Meetings: Minutes will be kept for each SAAC meeting/conference call and will be distributed to directors of athletics and senior woman's administrators.
